

2018 Green Initiatives

In Partnership with Trane

An “Energy Optics Analysis” was conducted, followed by the installation of a “Centrifugal Chiller” and “Modular Night-Operating Hot Water Boilers”. These systems create high efficiency and low emissions, all managed by a “Building Automation System”.

Pacific Palms Resort... As Green as our Golf Courses

General

- Green Committee
- Energy efficient light bulbs
- Lights set at half power when not in use
- Paper, plastic and aluminum recycling containers
- 4 Electric Vehicle and 1 Tesla Charging Stations

Golf Courses & Grounds

- Irrigated with Reclaimed Water
- Herds of Goats used as Natural Landscapers... It's True!
- Compost own landscape waste for re-use on property
- On-site nursery to grow seasonal plants & flowers
- 8-Acre Astro-turf driving range prevents need for watering grass

Guest Rooms & Suites

- Green Seal Certified Cleaning & Paper Products
- Linen & Towel Reuse Program
- Energy Efficient Lighting & A/C Units
- Blue Recycling Containers
- 100% Smoke Free
- Co-generation System Provides Energy Conservation & Efficiency

Banquets

- Recycle aluminum, plastic, and glass
- Minimized use of plastic water bottles
- Recycle paper used for event attendee pads
